***“Mellow Psychedelic Experimental Noize
for What Might Ever Be left Ov Your Soul
in These Modern Day Times”***

Figure 3 Aural into the Further Ep (2013) Inner sleeve.

Mellow psychedelic experimental noise formed out of the initial ashes of Omniman during the mild Canadian winter of 2009. Ov Moi Omm originally began as a vehicle for exploration. An exploration of experimental ideas; musical ideas that had been influenced by a variety of musical genres that can be found throughout the world. Sounds with chance and coincidence. Landscapes turn into soundscapes; the songs defy classic song structures and rely heavily upon "sound" collage.

Ov Moi Omm is a further vehicle (umbrella) for the musical exploration of the following acts: Omniman (II); Irama Gema; 10 Echo; Polyphony Più; Ihsan & the Cabinet of Dr. Caligari; Yellow Omm (a collaborative effort between Ov Moi Omm and Yellow Sunshine Microdot Happiness Band (YSMHB); Pulse Burst and Julia Felix. These acts can often appear alongside Ov Moi Omm and are definitely a part of the Ov Moi Omm universe and experience.

01. Choronzon

02. Lord of Hallucinations

Inspired by the summoning of Choronzon, the former High Duke of the Eighth Circle, in Bou Saâda, Algeria in December 1909 by Aleister Crowley and Victor Neuberg. Choronzon, "the demon of dispersion" originated within the writings of the two 16th

century occultists Edward Kelley and John Dee. Described by Crowley as a temporary personification of the raving and inconsistent forces that occupy the abyss. In this system, Choronzon is given form in evocation only so it may be mastered.

"The name of the Dweller in the Abyss is Choronzon, but he is not really an individual. The Abyss is empty of being; it is filled with all possible forms, each equally inane, each therefore evil in the only true sense of the word—that is, meaningless but malignant, in so far as it craves to become real. These forms swirl senselessly into haphazard heaps like dust devils, and each such chance aggregation asserts itself to be an individual and shrieks, "I am I!" though aware all the time that its elements have no true bond; so that the slightest disturbance dissipates the delusion just as a horseman, meeting a dust devil, brings it in showers of sand to the earth."

-The Confessions of Aleister Crowley: An Autohagiography; (Ch. 66).

2015's Aazhaway, Kanadario, KANATA is an album comprising ethnic electronic soundscapes in dedication to the Canadian city of Oshawa (self-proclaimed Automotive Capital of Canada) which is located in Southern

Ontario. Oshawa is a city on the Lake Ontario shoreline approximately 60 kilometers east of downtown Toronto. It is commonly viewed as the eastern anchor of the Greater Toronto Area and of the Golden Horseshoe. It is the largest municipality in the Regional Municipality of Durham. The name Oshawa originates from the Ojibwa term aazhaway, meaning "the crossing place" or just "(a)cross". Oshawa began as a transfer point for the fur trade.

Beaver and other animals trapped for their pelts by local natives were traded with the Coureurs des bois. Furs were loaded onto canoes by the Mississauga Indians at the Oshawa harbour and transported to the trading posts located to the west at the mouth of the Credit River. Around 1760, the

French constructed a trading post near the harbour location; this was abandoned after a few years, but its ruins provided shelter for the first residents of Oshawa.
